

# *Driving Fun Begins with Tappahannock Carriages!*

## Current Inventory

### The Back-to-Back Slat-Sided Trap/Full-Size Horses

List price: \$8,500

**Demonstrator price: \$7,250**

This solid oak Trap has a brass rein rail, whip holder and other hardware and spindle seats; it fits a 14 to 15+-hand horse (pair or single). The wheels are offset spokes on rubber, and the carriage is equipped with hydraulic brakes and four-spring suspension with fifth wheel and cut under. The rear trunk lid is used as a foot rest when open and provides access to the storage area. Pole and shafts are included.

## The Back-to-Back Slat-Sided Trap for Minis/Small Ponies

List price: \$4,800

**Demonstrator price: \$4,250**

This fun little carriage, a slat-sided, back-to-back trap, has been designed for a large miniature horse or a pony. The Trap has block brakes, offset spokes, wheels on rubber with roller bearings, a drop-front axle, and a heavier, three-spring suspension. Solid oak with a natural finish, the carriage comes with a rein rail, a whip holder, shafts for a single horse, and a pole for a pair. Zeus, a 38-inch mini is pulling the carriage, which is, with slight variations, a scaled-down version of the full-size back-to-back trap shown on page one.

**The Runabout**  
**List price: \$3,850**  
**Sale price: \$2,850**

This little runabout is made of solid poplar with oak bracing. It has mechanical brakes, a small functional trunk, offset spoke wheels with roller-bearing hubs. The carriage weighs less than 200 lbs. Hot Rod, a 31-inch mini, easily pulls the carriage. Add a pole for a pair of minis for \$650. Have a full-size horse? Call us! Tappahannock Carriages can build this design for any size horse!

**The Road Cart**  
**List price: \$2,150**

This front-entry road cart has wheels on rubber and flush hubs. Store your spares kit in the handy storage box that's tucked under the seat. The natural oak finish complements the dash board and black rein rail and whip holder. Shown with a 15.1-hand horse.

## Previously Driven and Gently Used Carriages!

### The MeadowBrook with Leather Harness

List price: \$3,000

**Drastically Reduced Sale price: \$1,800**

This MeadowBrook has all the options: brass rein rail, spares box, rear entry through flip-up seat, springs/flexi-shaft, and BRAKES! Wheels-48 inches with flush hubs. Also included: black leather harness with brass fittings and russet reins! It fits a 15+-hand horse. The harness TRULY is in LIKE NEW condition. Don't let this cart/harness combo pass you by. It's a must have!

**The Marathon**  
**List price: \$3,800**

This lightweight hunter green marathon, built by Mill Run Carriages, comes with a pole and shafts. A full cut under, the carriage has rear drum brakes, a ball-bearing fifth wheel, aluminum spoke wheels, and a wedge seat. NEVER abused.

## The McLaughlin Phaeton

List price: \$4,500

**Sale price: \$3,950**

This four-spring Phaeton, built by McLaughlin Carriage Company of Oshawa, Canada, has been restored and comes with pole and shafts. (Dog not included) The carriage has block brakes, tight wheels, and nice, blue wool upholstery...a very comfortable ride for four adults!

**The Farm Wagon**  
**List price: \$1,400**

This farm wagon has removable seats and shafts for a single horse. It has nice combination heavy springs. It is in good shape!

**The Cart**  
**List price: \$550**

This cart is in excellent condition and perfect for a little mini. It's very light, comfortable, and ready to go! Below, Zeus and Hot Rod are pulling similar carts.

**Driving fun begins with Tappahannock Carriages!**

## The Matching Sleigh and Carriage

List price: \$3,800

This freshly restored sleigh is perfect for enjoying the winter snow! It has a matching carriage in original condition. The carriage is very drivable – good wheels on rubber. The sleigh and carriage will be sold as a pair. The carriage can be sold as is or restored for an additional fee.

**Sold, but we can build one for you!**

## **The Roadster**

This smooth riding runabout is made of solid poplar with oak bracing and brass trimming. It has mechanical brakes, a small functional trunk, offset spoke wheels with roller-bearing hubs, and dropped axles to lower the center of gravity. The carriage weighs less than 200 lbs. Hot Rod, a 31-inch mini, pulls the carriage with ease.

**Contact Randy at Tappahannock Carriages today to purchase one of the carriages listed in this brochure, or to order a custom built carriage. Tappahannock Carriages builds and restores carriages and sleighs to fit miniature horses, ponies, and full-size horses.**
